

CAROLINE LEANDER BIOGRAPHY

With lyrics and melodies carved as one piece, built around her voice and piano, Caroline Leander is a pianist, singer and composer living in Malmo, Sweden. A combination of strong personal expression and musical flair.

The piano is her oldest friend who has accompanied her performances where ever you can imagine; from festivals around Europe to a tiny cheese shop in north west Scania.

Caroline performs live both in smaller constellations as with larger groups, with a repertoire in Swedish, French, English and Danish.

She has previously released 5 full length albums with her own songs, and also several records within her cooperations with other artists and songwriters throughout the years.

In 2024, the EP "Hem utan adress" was released, with 5 songs she wrote, after meeting residents and staff in a women's shelter. In 2025 the single Last Light was released, a warm love song about trust and hope.

Caroline *"makes music that strolls in a land inhabited by dreamy Californian singer-songwriters, French entertainers and wonderful Scandinavian nymphs with pockets full of jazz."* (Award-motivation SKAP)
